

## **A Wish Upon The Christmas Star**

I gaze up at the Christmas star  
The wondrous light I see.  
And I marvel at the blessings  
The holy star holds for me.

I could wish for friends and families  
To remain close to me  
In a year that's filled with laughter  
Love and prosperity.

I could wish for all the treasures  
From the corners of the earth  
But the only wish that matters  
Was fulfilled at Jesus birth.

So gaze upon that Christmas star  
Beaming through eternity  
Let our ransomed souls rejoice  
That our Savior's set us free.
